PROFILE SUMMARY

Enthusiastic and motivated Computer Science student with a passion for problem-solving and creativity. Eager to apply technical expertise and creative thinking to real-world projects. Proficient in Java and C++ development, database management, video editing, videography, and photo editing. A quick learner and team player, dedicated to enhancing skills, optimizing processes, and delivering impactful results through continuous learning and hands-on experience.

ACHIVEMENTS

Java (OOP Project)

Java Chess Application (2024)

- Co-developed a GUI-based chess game in Java implementing standard and advanced rules. Focused on real-time move validation, intuitive interface, and overall user experience under faculty supervision.

University Photography Club

Club member   (2024–Present)

- Active member of the photography club at university, creating high-quality content that highlights the university's nature, architecture, and events.
- Captured visually engaging photos for various university occasions, contributing to the club's portfolio and enhancing the university's visual presence.

Inspire Me Website

Personal Project (2025)

- Developed a motivational platform using HTML, CSS, and JavaScript featuring dynamic quotes and affirmations. Focused on responsive design, smooth transitions, and a minimalist layout to promote positivity and user engagement.
